School of Public Health 1- and 2- Credit Courses

As the search for Spring classes begins, consider earning credits outdoors! SPH-W Courses are one- and two- credit classes designed to teach outdoor skills and promote personal growth through exhilarating group adventures. They are offered through the Department of Recreation, Park and Tourism Studies in the School of Public Health.

Nearly all of the one-credit courses meet over a three-week period at varied times throughout the semester. The tropical three-week format includes three evening classroom sessions plus one weekend field experience. No prior experience is necessary for any course. Group gear, transportation, and food for the weekend trip is provided.
